

COLLEGE TRAININGS

We provide training in fields like Mechanical, Electrical, Civil/Architectural, Project Management and interior design. Training is customised according to the specification of the client but the aim is to make the trainee understand the concept in the easiest way possible, so that they can enhance their designing capabilities and can complete their projects and thesis. Trainee receives special attention from our team and committed to give their level best.

1

CAD (Computer Aided Design)

- Physical part to 2D or 3D conversion, 2D to 3D conversion, scan data to 3D conversion.
- Paper to CAD conversion.
- Product development.
- Tool design.

2

CAM (Computer Aided Manufacturing)

- CNC Programing.

3

CAE/Analysis (Computer Aided Engineering)

- Static structural analysis (linear & Non-linear).
- Thermal analysis.
- Buckling analysis.
- Crash analysis, fatigue analysis.
- CFD (Fluid analysis) analysis etc.

5

VFX

- Live shoot, commercial shoots, Chroma shoots (Green Screen shoots).
- Architectural & product shoots.
- Sound Editing.
- Motion graphics.
- Film making.
- Video compositing.

4

3D Animation & 3D Content Designing

- Character Animation.
- 3D interior & Exterior Designing.
- Product designing.
- 3D / Architectural walk through,
- 3D rendering services.
- 3D Movie creation/commercial making.

CAD ZONETM

WHERE PERFECTION IS PROFESSION

APPROVED BY DELHI GOVT.(REG. NO. 68514)
